## **DETAILED ACTION**

### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:
2. The applicant's timely filing of the terminal disclaimer filed 2/20/07 has overcome previous double patenting rejections and has thus put the instant case in condition for allowance.
3. The prior art of record fail to teach or suggest the applicant's specific combination of zinc oxide, water and in particular the adjuvant system. In claim 1, the adjuvant system requires the inclusion of latex surfactants and an organosilicone surfactant. In claim 17, the adjuvant system requires di-1-p-methane. And claim 49 requires the adjuvant to contain alpha-pinene. None of these combinations in a paint formulation were found.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
